

FOR IMMEDIATE RELEASE

Laser's Resource chosen by Hewlett Packard for pilot program.

Grand Rapids, MI – June 8, 2006 – “We are extremely proud that HP has chosen Laser's Resource as one of only 10 business partners in the United States to participate in this highly developed and user effective program”, said Thomas Senecal, president of Laser's Resource.

Hewlett Packard has developed a printing and imaging program for the Real Estate market. This business solution package reduces the time it takes to get a property listed on the MLS allows for improving the quality of marketing materials, speeds the distribution of these materials to the market, and even provides a method where the Real Estate agency owners can turn these marketing costs into profits. Additionally, HP and Laser's Resource can provide an agency with tools to manage the paper flow and retention of data from the time of the listing all the way through the closing, while providing for simple retrieval to maintain compliance and pass audits.

Laser's Resource is west Michigan's only local HP – VIP Elite Business Partner; Providing HP printing, office imaging solutions, supplies and service throughout western Michigan.
